

Cyber Shujaa

Cloud Security Specialist

Assignment 8: AZ-500 Learning Path

NAME: WELDON KIPKIRUI KENEI

CS NO: ADC-CSS02-25027

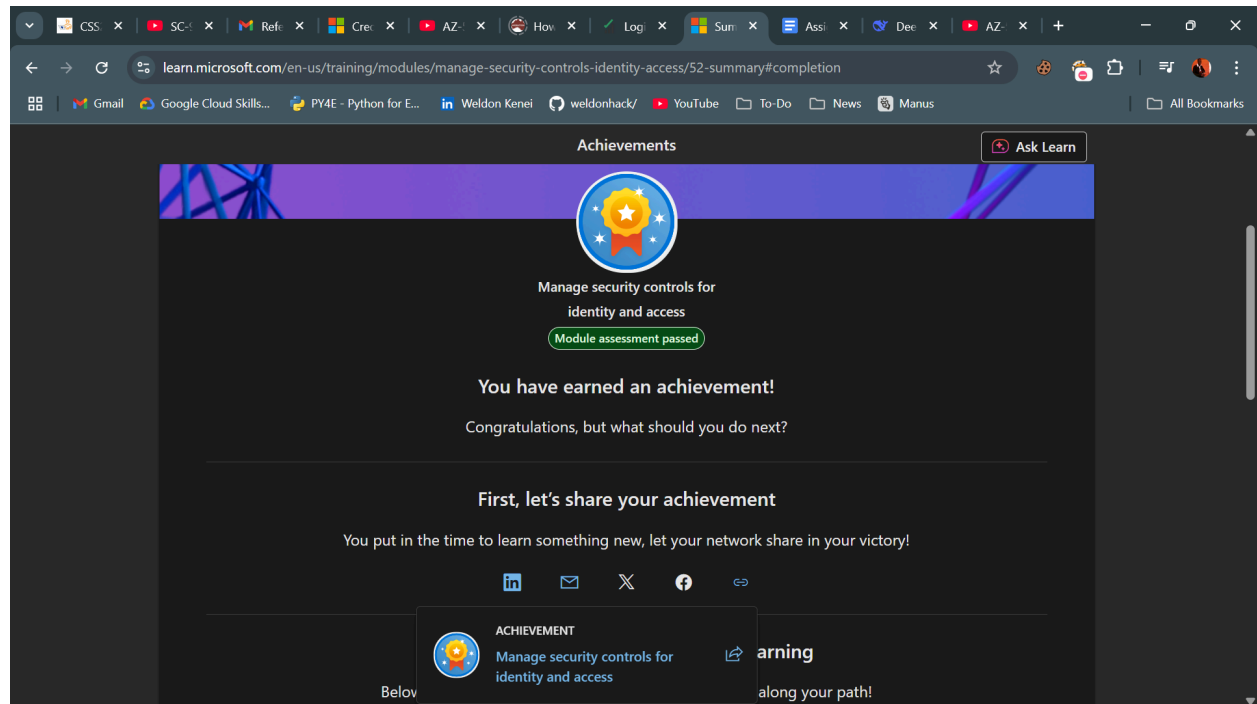

Introduction

In this assignment, we are tasked to go through managing security controls for identity and access, where we will understand different authentication methods used for controlling access, and how they are deployed. We will also look at how to manage Microsoft Entra application access.

Manage security controls for identity and access

Here, we have learned how to manage security controls in Microsoft Entra ID by securing user identities, protecting groups and external identities, implementing Microsoft Entra ID Protection, and enforcing security policies to mitigate identity-related threats and unauthorized access.
